PROFILE

I am an Informatics student with a strong interest in artificial intelligence systems development, web development, and data processing. Skilled in designing efficient and analytical technical solutions, with the ability to integrate modern technologies to support data-driven applications. Committed to maintaining high standards of quality, precision, and continuous learning in the field of information technology.

EXPERIENCE

Bawaslu Kabupaten Tegal | Web Developer & Multimedia Specialist (Next.js, Laravel) **2026**

Designed and developed a web-based electoral violation reporting system using Next.js and Laravel. Contributed to multimedia production, including video and image editing, as well as creating social media content to support digital communication and public outreach.

SATYAVRATA Company Profile | Frontend Developer (Next.js) **2025**

Designed and developed a company profile website using Next.js, focusing on modern UI/UX implementation, cross-device responsiveness, and web performance optimization.

PROJECT

UMKM Desa Lodaya Website | Web Developer (Nuxt.js) **2026**

Designed and developed a website to showcase local micro, small, and medium enterprises (MSMEs) in Desa Lodaya as part of a community service program (KKN). Built a responsive and user-friendly digital platform to present business profiles, products, and contact information, helping local businesses improve their online visibility and expand their digital presence.

TECHNICAL SKILL

Languages: JavaScript, TypeScript, Go, Python, PHP
Frontend: Next.js, React.js, Nuxt.js, Tailwind CSS
Backend: REST API, WebSocket, Laravel
Database & Infrastructure: MySQL, PostgreSQL, Redis, Git, Github
Interest: FullStack Engineering, AI/ML Engineering, Real-Time System

EDUCATION

MAN Kota Tegal **2020 - 2023**

informatics | Pancasakti University Tegal **2023 - Present**
